Anti-Trust Reminder

All PBGH meetings are to be conducted in full compliance with anti-trust law. The antitrust laws **prohibit competitors from agreeing on prices** to be charged or otherwise taking steps that harm free and fair competition among them.

Even companies that do not compete in the sale of their goods and services may nevertheless compete in their efforts to hire and retain talented employees and they **cannot legally agree with one another on the salaries, wages or benefits they will offer**, the recruiting practices they will utilize or the human resources policies they will put in place.

There should be no communications among PBGH members that could be interpreted, or misinterpreted, as negotiations, coordination or agreement on these issues.
