[Health Integration: Billing and Payment Codes.](#)

Data

Thank you for joining September's Cycle 2 Data Webinar. The [slides](#) and [recording](#) are now available on our website. Cycle 2 global reporting data submission is due on Friday, October 11 by EOD.

As discussed in the Cycle 2 Data Webinar, Jose will join improvement advisor meetings in the months of October and November to discuss your pilot site finance and process measures. We hope to optimize your measures' specifications to support the tracking of your BHI implementation efforts. After having a meeting with Jose, a deadline will be provided to your team to re-submit a final draft of your measures' specifications. Reporting for the pilot site will begin on Cycle 3 (January 2025).

Reach out directly to [Jose Ordonez](#) with any questions.

Spotlight: BHI Regulatory Updates

As a regular Connect feature, we will share regulatory changes impacting behavioral health integration policy. This month we

are highlighting two statutes that support BHI in California:

- AB 2581 – aims to ensure timely credentialing of providers
- SB 1320 – requires a plan to establish a process to reimburse providers for mental health services integrated with primary care

These statutes are described in greater detail in our [Regulatory Tracker](#).
